

ORGANIZE *your priorities* BEFORE *our call*

We all have things we want out of a renovation, but we never organize them in way that actually helps us make the important calls. Take a few minutes to list out the **"must-have"** features or selections for your remodel, then those that would be **"nice-to-have"**, if possible. Then, treat yourself to a brainstorm of the things you'd gladly include if you **won the lottery!!**
